## **CHAUVET COLORADO 3**

Chauvet's COLOrado 3 brings color to indoor and outdoor venues, where they can be stacked via multiple interlock points to create a seamless trip, wall or blinder light. Three pods of 18 one-watt LEDs, arranged in circles, adorn this intelligent wash bank, which features a variety of colors including red, green, blue, cyan, magenta, yellow and white. It offers chase, flash and strobing functions, plus 12 DMX channels. Seven of those allow for individual control over the available colors. With Chauvet's ID addressing protocol, multiple units can use a single DMX address while the user still controls each one individually. —ML
